Services for Reliable and Productive Mechanical Systems

EMCOR Services

Betlem

EMCOR Services Betlem is a full-service commercial, industrial, and residential mechanical contractor, specializing in HVAC services, construction (including piping and sheet metal), building automation, and energy services.

With our state-of-the-art service equipment and 24/7/365 response, you have a single-source HVAC and facilities services company that can provide you with the high-quality mechanical systems you need for reliable, productive, and cost-conscious operation.

Mechanical Services Designed to Fit Your Building, and Your Needs

At EMCOR Services Betlem we fuse some of today's most efficient project delivery models with current technology to take construction planning and execution to a whole new level. With our expert team on your side, we can help you complete projects on time and on budget.

With four divisions—commercial, mechanical, residential/light commercial, and energy services—EMCOR Services Betlem provides tailored solutions for businesses, organizations, and homeowners. Our high-quality workmanship helps ensure that homes and businesses stay comfortable and productive.

Trusted Experience and Proven Performance

Our skilled, experienced technicians know how to keep systems running reliably at peak performance and efficiency. We service almost all types of equipment in a variety of building types. From critical environmental controls in biotech laboratories to chiller plant applications in commercial buildings, we are here to provide solutions for all your mechanical and energy needs.

In addition to those services listed above, we provide our commercial customers with BIM, design-build, professional engineers and certified energy managers, energy analysis and benchmarking, and other facilities services.

Expertise, No Matter the Brand or Type of Equipment

We service virtually all HVAC equipment makes and models, with expertise working on:

- > Water- and air-cooled chillers
- > Rooftop units
- > Boilers
- > Cooling towers
- > Pumps
- > Air handling units
- > Refrigeration equipment
- > IT server room/data center equipment
- > Split systems

Keeping You Comfortable at Home Too

Our residential division offers a variety of home comfort services. Technicians install and maintain a full line of home heating and cooling equipment, including:

- > Furnaces
- > Heat pumps
- > Air conditioners
- > Eco-thermal systems
- > Air cleaners
- > Humidifiers
- > Boilers

To keep your house healthy and your equipment working efficiently, we also offer duct and furnace cleaning.
